CONTENTS OF VOLUME 120

NUMBER 1, 8 JANUARY 1988

NG, C. F. and WHITE, R. G., Dynamic behaviour of postbuckled isotropic plates under in-plane compression	1
AZIMI, S., Free vibration of circular plates with elastic edge supports using the receptance method	19
AZIMI, S., Free vibration of circular plates with elastic or rigid interior support	37
BAPAT, C. N. and BAPAT, C., Impact-pair under periodic excitation	53
ZAVODNEY, L. D. and NAYFEH, A. H., The response of a single-degree-of-freedom system with quadratic and cubic non-linearities to a fundamental parametric resonance	63
LAURA, P. A. A., VERNIERE DE IRASSAR, P. L., CARNICER, R. and BERTERO, R., A note on vibrations of circumferential arch with the thickness varying in a discontinuous fashion	95
BAPAT, A. V., VENKATRAMANI, N. and SURYANARAYAN, S., A new approach for the representation of a point support in the analysis of plates	107
BAPAT, A. V., VENKATRAMANI, N. and SURYANARAYAN, S., Simulation of classical edge-conditions by finite restraints in the vibration analysis of plates	127
KOSS, L. L., Correlation of power variables-normalized results	141
BURGESS, J. J. and TRIANTAFYLLOU, M. S., The elastic frequencies of cables	153
GOTTLIEB, H. P. W., The chequered membrane	167
GENTA, G. and GUGLIOTTA, A., A conical element for finite element rotor dynamics	175

Letters to the Editor

ELLIOTT, S. J., JOSEPH, P., BULLMORE, A. J. and NELSON, P. A., Active cancellation at a point in a pure tone diffuse sound field	183
BARSIKOW, B. and KING, III, W. F., On removing the Doppler frequency shift from array measurements of railway noise	190
RAO, B. N. and RAO, G. V., Applicability of the static or dynamic criterion for the stability of a cantilever column under a tip-concentrated subtangential follower force	197

NUMBER 2, 22 JANUARY 1988

Proceedings of the Fourth International Workshop on Railway and Tracked Transit System Noise, Noordwijkerhout, The Netherlands, 24-26 October 1985

TEN WOLDE, T., DE JONG, R. G. and HEMELRIJK, R., Foreword	201
REMINGTON, P. J., Wheel/rail rolling noise: what do we know? what don't we know? where do we go from here?	203
SCHNEIDER, E., POPP, K. and IRRETIER, H., Noise generation in railway wheels due to rail-wheel contact forces	227
VAN RUITEN, C. J. M., Mechanism of squeal noise generated by trams	245
WETTA, P., BEGUET, B. and PARENT DE CURZON, E., Experimental analysis of wheel/rail noise by near field acoustical imaging	255

CONTENTS OF VOLUME 120

KAPER, H. P., Wheel corrugation on Netherlands railways (NS): origin and effects of "polygonization" in particular	267
THOMPSON, D. J., Predictions of acoustic radiation from vibrating wheels and rails	275
WIJNIA, Y. K., Noise emission from trams	281
VAN RUITEN, C. J. M., A new method for the measurement of wheel/rail roughness	287
KANTARELIS, C. and WALKER, J. G., The identification and subjective effect of amplitude modulation in diesel engine exhaust noise	297
ESCUDIÉ, B., CHIOLLAZ, M. and PARENT DE CURZON, E., Interferometric acoustic imaging of railway noise	303
PARENT DE CURZON, E. and BEGUET, B., Study into sources of wagon noise; measurement of sound energy generated by vehicle bodies and running gear	311
MOEHLER, U., Community response to railway noise: a review of social surveys	321
KAKU, J. and YAMASHITA, M., Impact noise from railroads	333
ANDERSEN, T. V., KUHL, K. and RELSTER, E., Reactions to railway noise in Denmark: a correction	339
MIEDEMA, H. M. E. and VAN DEN BERG, R., Community response to tramway noise	341
WALKER, J. G., Railway noise exposure: a possible method of establishing criteria for acceptability	347
KAPER, H. P., Certification and monitoring test measurements; feasibility of noise limit values for disc- and tread-braked rolling stock	351
TEN WOLDE, T., Noise emission type test methods for railbound vehicles at constant speed	355
RINGHEIM, M., Sound propagation and the prediction of railway noise	363
VAN RUITEN, C. J. M., Dutch railway noise prediction schemes	371
KIKUCHI, I., Shinkansen noise: research and achievements in countermeasures for Shinkansen noise	381
MELKE, J., Noise and vibration from underground railway lines: proposals for a prediction procedure	391
LANG, J., Ground-borne vibrations caused by trams, and control measures	407
HOWARTH, H. V. C. and GRIFFIN, M. J., Human response to simulated intermittent railway-induced building vibration	413
MELKE, J. and SWITAISKI, B., Elastomer rail support systems: problems in dynamic testing	421

NUMBER 3, 8 FEBRUARY 1988

ROTHWELL, D. J. and PURSHOUSE, M., The transfer admittance of a point-excited, fluid-loaded plate	431
EBRAHIMI, N. D., Optimum secondary dampers for free response of underdamped systems	445
ÅKESSON, B. and OLHOFF, N., Minimum stiffness of optimally located supports for maximum value of beam eigenfrequencies	457
ALVAREZ, S. I., FICCADENTI DE IGLESIAS, G. M. and LAURA, P. A. A., Vibrations of an elastically restrained, non-uniform beam with translational and rotational springs, and with a tip mass	465

CONTENTS OF VOLUME 120

PETROLITO, J. and GOLLEY, B. W., Finite panel for plate vibration	473
SEYBERT, A. F. and TSUI, Y. K., The radiation efficiency of mass-loaded, slender baffled beams	487
MINTEN, M., COPS, A. and LAURIKS, W., Absorption characteristics of an acoustic material at oblique incidence measured with the two-microphone technique	499
SAITO, H. and YAGUCHI, H., Natural vibrations of a cantilever beam with support damping	511
NALECZ, A. G. and WICHER, J., Design sensitivity analysis of mechanical systems in frequency domain	517
PARSZEWSKI, Z. A., KRODKIEWSKI, J. M. and SKORACZYNSKI, J., Stability assessment of machine systems described by receptance	527
SINGH, M. P. and SUAREZ, L. E., A method for dynamic coupling with non-classical damping effects	539
LARDIES, J. and GUILHOT, J.-P., A very wide bandwidth constant beamwidth acoustical end-fire line array without side lobes	557
NUSHOLTZ, G. S., A simple non-linear shift-variant process/filter for reducing Gaussian noise in impact signals	567
LAURA, P. A. A., VALLERGA DE GRECO, B., UTJES, J. C. and CARNICER, R., Numerical experiments on free and forced vibrations of beams of non-uniform cross-section	587
KANARACHOS, A. E. and SPENTZAS, C. N., An artificial damping method for the determination of the steady state of harmonically excited non-linear systems	597

Letters to the Editor

FRANCIOSI, C., Free vibrations of arches in presence of axial forces	609
MALHOTRA, S. K., GANESAN, N. and VELUSWAMI, M. A., Damped vibrations of orthotropic square plates having variable thickness (linear variation)	617
CORTINEZ, V. H., LAURA, P. A. A., SANZI, H. C. and BERGMANN, A., Free vibrations of a corrugated membrane with a fixed inner circular boundary	622
MAURIZI, M. J., BAMBILL DE ROSSIT, D. V. and LAURA, P. A. A., Free and forced vibrations of beams elastically restrained against translation and rotation at the ends	626
WILLIAMS, H. E., A singular perturbation solution for the beam-string	631
